

PAUL changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
^<	- Increased the lower range of the attack. - You can now shift to Sway with " ^< ".
■ >	- Decreased the distance between the character and the opponent when the move is blocked.
■ ·	- Shortened the recovery animation by 1 frame when the move hits.
■ ·	- Changed the opponent's behavior when hit in midair.
✓ √ <	- Changed the opponent's behavior when hit in midair.
□ ^	- Increased the strength of the pushback when the move misses, making you less likely to end up on the other side of the opponent.
□ ·	- Increased the strength of the pushback to reduce the frequency at which the character would switch places with the opponent.
■ · ^	- Increased the distance between the character and the opponent when the move hits the opponent while they're down.
■ · ^ · ·	- Changed the move to send the opponent spinning when it hits. - Changed the move to send the opponent spinning when it hits them midair.
✓ ρ □ <	- Increased the lower range of the attack.
✓ ρ □ >	- Changed the opponent's behavior when hit while downed. - Increased the lower range of the attack.
While rising <	- Decreased the distance between the character and the opponent when the move is blocked.
While crouching ■ >	- The move can now be canceled with "While crouching ■ > ·".
✓ ρ □ ^ <	- Increased the lower range of the attack.
✓ ρ □ ^ < ^	- Replaced with a new move.

LAW changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
During Rage >	- Reduced the strength of the pushback, and made the move easier to land.
During Rage ρ · ·	- Increased the lower range of the attack.
· ♥ ^	- Reduced the strength of the pushback, and made the move easier to land. - Can now shift to "Dragon Charge 2" with "· ♥ ^ □ ■".
· ·	- Changed the damage from 5, 12, 17 to 5, 10, 15.
■ [< √]	- Increased the lower range of the attack.
■ ^ ^	- Fixed an issue in which the 1st hit's range would be reduced when the 2nd hit was input.

■ *	- Decreased the distance between the character and the opponent when the move is blocked.
✓ ∨ ^	1st hit - Changed the frame advantage when blocked from -13 frames to -12 frames. - Changed the frame advantage upon hit from +1 frame to +2 frames. 2nd hit - Changed the move to send the opponent spinning when it lands as a counter hit.
✓ < ^	- Reduced the attack's side range and increased its lower range.
During Dragon Charge ^ During Fake Step ^	- Changed the damage from 28 to 30.
During Dragon Charge ■ ^ During Fake Step ■ ^ ■ * ^	- Removed clean hit detection.
ρ *	- Increased the recovery time after the move hits by 1 frame.
□ ∨	- Increased the range of the attack.
□ < ∨	- Changed the frame advantage when blocked from -1 frame to -3 frames.
□ < ^ ✓ *	- Changed the damage from 21 to 23.
■ * < ^	- Changed the frame advantage when blocked from -17 frames to -15 frames. - Shortened the recovery time after the move hits by 2 frames. - The 2nd hit can now be ducked under if the 1st hit is blocked.
■ **	- Changed the damage from 10 to 12. - Changed the opponent's behavior when hit.
■ ** ^	- Replaced with a new move.
While rising ∨	- Increased the lower range of the attack.
Back toward enemy <	- Decreased the distance between the character and the opponent when the move hits.
Approach enemy ■ **	- Fixed an issue in which following up with certain moves would cause the opponent to become turned around.

KING changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
During Rage ρ >	- Fixed an issue in which the move could not be input while running.
∨	- Increased the range of the attack.
<	- Decreased the distance between the character and the opponent when the move hits.
< ∨	- Changed the frame advantage when blocked from -2 frames to -1 frames. - Changed the frame advantage upon hit from +5 frames to +7 frames.
> ∨	- Enabled the move to cause a wall bound if it hits.
■ < ✓ ∨	- Increased the range of the attack.
■ < ∨	- Fixed an issue in which the move's frame advantage when blocked would vary depending on the timing at which the 2nd hit was input.
ρ ^	- Changed the opponent's behavior when the move lands as a counter hit.
□ <	- Increased the move's reach.

□◀	- New move.
■ ••◀	<ul style="list-style-type: none"> - Changed the damage from 14 to 15. - Changed the frame advantage when blocked from -15 frames to -14 frames. - Changed the frame advantage upon hit from ±0 frames to +1 frame.
While rising >	- Decreased the distance between the character and the opponent when the move hits.
During Leg Cross Hold >	<ul style="list-style-type: none"> - Reduced the number of input windows from 2 to 1. - Changed the input window from 1 frame to 3 frames.

YOSHIMITSU changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes

ρ~<	- Replaced with a new move.
ρ<	- Changed the frame advantage when blocked from -13 frames to -11 frames. - Shortened the recovery time after the move hits by 2 frames.
ρ^	- Decreased the distance between the character and the opponent when the move is blocked.
■ ' ^	- Changed the opponent's behavior when hit. - Fixed the animation before the attack startup to reduce instances in which an opponent's high attack would occasionally not land.

DEVIL JIN changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
∨<^	- Decreased the distance between the character and the opponent when the move hits.
<	- Changed the damage from 10 to 9.
■ >	- The 2nd hit can now be canceled with " ■ > ' ".
□<~	- New move.
□<~> (must hit)	- New move.
♥·	- Increased the distance between the character and the opponent when the move hits. - Increased the lower range of the attack.
□ ■ <~ ■ <	- Increased the strength of the pushback to reduce the frequency at which the character would switch places with the opponent.
■ · √ ■ <	- Changed the damage from 23 to 20.
While rising <	- Decreased the distance between the character and the opponent when the move hits.

FENG changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
∨ < <	- Changed the frame advantage upon hit from +1 frame to +3 frames.
∨ < < •	- Changed the frame advantage upon hit from +3 frames to +5 frames.
^	- Decreased the distance between the character and the opponent when the move hits or is blocked.
^^ ••	- Shortened the recovery time by 4 frames.

♥ •	- Changed the opponent's behavior when hit.
■ • < •	1st hit/2nd hit - Changed the opponent's behavior when hit.
■ • ^ During Harrier ♥ ^	- Changed the frame advantage when blocked from -6 frames to -9 frames. - Increased the recovery time after the move hits by 3 frames. - Changed the opponent's behavior when the move lands as a counter hit. - Changed the opponent's behavior when hit while downed.
(While enemy is down) ✓ •	- Changed the damage from 30 to 25. - Changed the opponent's behavior when hit while downed.

LUCKY CHLOE

changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
Standing	- Updated the animation.
During Rage ■ ·	1st hit - Fixed an issue in which the move could not be input while running. 2nd hit - Fixed an issue in which the 2nd hit would not be performed in the direction of the opponent if the 1st hit had landed/been blocked when an opponent was sidestepping. 3rd hit - Changed the move to no longer cause the floor to break.
∨ < ∨ ■ < ∨ During Left Twist ■ < ∨	- Enabled the move to cause a wall bound if it hits. - Decreased the distance between the character and the opponent when the move is blocked.
< <	1st hit - Changed the damage from 12 to 10. 2nd hit - Changed the damage from 17 to 15. - Changed the opponent's behavior when the move lands as a counter hit. - Increased the distance between the character and the opponent when the move hits. - The properties of the move now change with " < " after proper timing " < ".
< ^	- Changed the damage from 10 to 14. - Changed the input window for the 2nd hit from 8 frames to 15 frames.
■ >	- Changed the attack startup from frame 25 to frame 27. - Increased the move's backward movement.
■ ·	- It is now possible to cancel the 3rd hit with " ■ · · " and shift to facing away from the opponent.
■ ^ ^	1st hit/2nd hit - Decreased the distance between the character and the opponent when the move hits or is blocked.
ρ ∨	- Enabled the move to cause a wall bound if it hits. - Decreased the distance between the character and the opponent when the move is blocked.
During Left Twist <	- Changed the command from "During Left Twist < " to "During Left Twist ■ < " - New move.
During Left Twist ^	- Increased the move's reach.
ρ >	- Increased the move's backward movement.
□ ∨	- Reduced the strength of the pushback, and made the move easier to land.
Back toward enemy <	- New move.

Back toward enemy $\wedge \cdot$	1st hit – Decreased the distance between the character and the opponent when the move is blocked. 2nd hit – Changed the frame advantage when blocked from –6 frames to +1 frame. – Shortened the recovery time after the move hits by 4 frames. – Increased the range of the attack.
Back toward enemy \cdot	– Changed the damage from 30 to 24. – Decreased the distance between the character and the opponent when the move hits.
Back toward enemy $\checkmark \cdot$	– Increased the duration of the character’s crouching status by 32 frames.
$\heartsuit \cdot$	– Changed the attack startup from frame 27 to frame 24.
During Scoot $\cdot \cdot$	– Increased the move’s reach.
$\blacksquare \blacksquare \blacksquare \cdot$	– New move.
While rising \wedge	– Changed the opponent’s behavior when the move lands as a counter hit.

SHAHEEN changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack’s hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
During Rage $\rho \leftarrow \cdot \cdot$	– Delayed by 10 frames the timing at which you can shift to a crouching position after inputting \cdot .
$\blacksquare \wedge$	– Changed the move to a homing attack.
$\blacksquare \cdot$	– Increased the duration of the attack registering as a hit by 1 frame. – Changed the opponent’s behavior when the move lands as a regular hit or a counter hit.
$\blacksquare \cdot$	– Changed the frame advantage when blocked from –11 frames to –7 frames. – Changed the frame advantage upon hit from +1 frame to +5 frames.
$\blacksquare \cdot \cdot$	– Delayed the attack’s timing by 4 frames. – Delayed by 4 frames the timing at which you can shift to a crouching position after inputting \cdot .
$\checkmark \cdot$	– Increased the range of the attack.
$\rho \wedge \cdot$	– Changed the damage from 15, 23 to 12, 20. – Changed the opponent’s behavior when hit.
$\rho \cdot$	– Changed the damage from 30 to 23. – Changed the opponent’s behavior when hit.
$\square \checkmark$	– Changed the damage from 18 to 20. – Changed the frame advantage when blocked from –9 frames to +1 frame. – Changed the frame advantage upon hit from +3 frames to +8 frames. – Decreased the distance between the character and the opponent when the move hits or is blocked. – Changed the opponent’s behavior when the move lands as a counter hit. – It is now possible to shift to a crouching stance with “ $\square \checkmark \cdot$ ” after the move.
$\square \wedge$	– Increased the lower range of the attack.

□•	- Changed the opponent's behavior when the move lands as a counter hit.
■ ••	- Enabled the move to cause a wall bound if it hits.
■ ■ ■ <	- Changed the frame advantage when blocked from +4 frames to +6 frames. - Decreased the distance between the character and the opponent when the move is blocked. - Fixed an issue in which it was possible to perform an attack reversal.
During Stealth Step •	- Changed the command from "During Stealth Step •" to "During Stealth Step •". - Increased the duration of the attack's hitbox by 5 frames.
During Stealth Step •∨	- New move.
While rising ∨	- Changed the damage from 16 to 17. - Changed the attack startup from frame 15 to frame 14.
While rising ^^	- Changed the frame advantage when blocked from -15 frames to -13 frames. - Shortened the recovery time after the move hits by 2 frames.
While crouching ■ ∨ • ^	- Changed the damage from 24 to 21. - Decreased the distance between the character and the opponent when the move hits.

JOSIE changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
During Rage ■ • √ ■•	- Fixed an issue in which the move could be performed with "During Rage ■ • √ •".
∨ < ^ < ^	- Changed the opponent's behavior when the move lands as a counter hit.
While in Switch Stance •	- Enabled the move to cause a wall bound if it hits. - Adjusted the animation to make it easier to see the jump motion.
< •	- The move will now chain together.
^ <	- Changed the opponent's behavior when the move lands as a counter hit.
■ < ^ ^	- New move.
■ ∨ < •	- It is now possible to shift to Slide In with "■ ∨ < •".
■ ∨ [••] □ • ^ √ [••]	- Changed the frame advantage when blocked from -11 frames to -7 frames. - Increased the distance between the character and the opponent when the move is blocked. - Changed the opponent's behavior when hit.
■ ^ <	- Changed the opponent's behavior when the move lands as a counter hit.
■ •	- Changed the attack startup from frame 26 to frame 22. - Changed the frame advantage when blocked from -12 frames to -13 frames. - Increased the recovery time after the move hits by 1 frame.
√ <	- Changed the opponent's behavior when the move lands as a counter hit. - It is now possible to shift to a crouching stance with "√ < •" after the move.
ρ <	- Changed the damage from 20 to 25.
ρ • <	- Increased the lower range of the attack.

□↘◀	<ul style="list-style-type: none"> - Changed the frame advantage upon hit from +1 frame to +6 frames. - The 3rd hit will now always chain together with the 4th, even when delaying its input.
□◀	<ul style="list-style-type: none"> - Changed the damage from 12 to 17.

GIGAS changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

✓ ⋯	- Decreased the duration of the attack's hitbox by 1 frame.
□ ⋯	- Decreased the distance between the character and the opponent when the move is blocked.
♥ ⋯	- Increased the lower range of the attack. - Fixed an issue in which the character would not be counted as jumping during the second half of the move if it was blocked or missed.
■ ⋯ ^	- Changed the attack startup from frame 16 to frame 14.
■ ⋯ ⋯	- Changed the opponent's behavior when the move lands as a counter hit.
While rising ^ ^	- It is now possible to shift to Hitman with "While rising ^ ^ ⋯".
While rising < ^	- Decreased the distance between the character and the opponent when the move is blocked.
Time with enemy punch □ >	- The move can now be performed from a crouching position.
Time with enemy punch □ > ⋯ upon successful parry	- Changed the attack from a high attack to a mid attack.

KUMA & PANDA changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
During Rage ■ ⋯ >	- Fixed an issue in which following up with certain moves would cause the opponent to become turned around.
During Hunting >	- Changed the opponent's behavior when hit while downed.
During Hunting ■ ∨	- Changed the damage from 24 to 20.
During Hunting ■ <	- Decreased the distance between the character and the opponent when the move is blocked.
During Hunting ✓ >	- Changed the opponent's behavior when the move lands as a counter hit.
☑ >	- Changed the command from "☑ >" to "□ ⋯". - New move.
☑ > ■ ■ ✓ ρ □ ☑ ♥ ♥ ♥	- Changed the command from "☑ > ■ ■ ✓ ρ □ ☑ ♥ ♥" to "□ ⋯ ■ ■ ✓ ρ □ ☑ ♥ ♥".
□ ■ <	- Changed the damage from 26 to 23.
While rolling forward ^	- Changed the opponent's behavior when hit.

While rising \downarrow	- Changed the damage from 25 to 20.
Crouching	- Fixed the animation to reduce instances in which an opponent's low attack would occasionally not land.

EDDY changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
$[\wedge \cdot]$	- Decreased the distance between the character and the opponent when the move hits.
$\blacksquare < \wedge$	- New move.
$\blacksquare \cdot \wedge \cdot$	- Decreased the distance between the character and the opponent when the 3rd hit is blocked.
$\rho >$	- Changed the damage from 12 to 15.
$\square >$	- The move can now also be performed with a slide input ($\square[\downarrow >]$, $\square[\ll >]$).
$\heartsuit \wedge \cdot$	- Decreased the distance between the character and the opponent when the move hits.
$\blacksquare \cdot < \wedge$	- Changed the frame advantage when blocked from -15 frames to -14 frames. - Decreased the distance between the character and the opponent when the move is blocked. - Changed the frame advantage upon hit from +4 frames to +5 frames.
$\blacksquare \blacksquare \blacksquare \wedge$	- Changed the damage from 18 to 20.
During sidestep $<$	- Changed the frame advantage when blocked from ± 0 frames to +3 frames. - Changed the frame advantage upon hit from +5 frames to +8 frames. - Changed the opponent's behavior when hit.
During Handstand \cdot	- Changed the attack startup from frame 28 to frame 26.
During Handstand $\cdot \cdot$	- The character is now counted as crouching from frames 1 to 15.
During Handstand $\square \wedge$	- Changed the opponent's behavior when the move lands as a counter hit.
$[\wedge \cdot]$ During Handstand $[\wedge \cdot]$	- Decreased the distance between the character and the opponent when the 1st hit lands.
$\blacksquare \cdot \cdot$ During Handstand $\cdot \cdot$	- Decreased the distance between the character and the opponent when the 2nd hit lands.
$\downarrow \wedge$ $\blacksquare \wedge$ During Negativa $\downarrow \wedge$	- Changed the opponent's behavior when the move lands as a counter hit.

ELIZA changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
✓ ■ ■ ∨ (or <) ■ · ✓ ■ ■ > ■ · · < ✓ ■ ■ ∨ (or <) ■ · ■ · · < ✓ ■ ■ > ■ · ■ ·	- It is now possible to shift to a crouching stance with "·".
✓ ■ ■ >	- Fixed an issue in which "During Moon Glide ∨" could not be crouched under after the 2nd hit is blocked.
■ ✓ ■ ∨	- Decreased the distance between the character and the opponent when the move hits.
■ ✓ ■ >	- Increased the duration of the 5th hit's hitbox by 2 frames.
✓ ρ □ <	- Changed the frame advantage upon hit from -2 frames to +2 frames. - Increased the lower range of the attack.
✓ ρ □ ^	- Changed the frame advantage when blocked from -19 frames to -13 frames. - Shortened the recovery time after the move hits by 6 frames. - Changed the opponent's behavior when the move lands in midair or lands as a counter hit.
During jump ✓ ρ □ ^	- Changed the frame advantage when blocked from -20 frames to -14 frames. - Shortened the recovery time after the move hits by 6 frames. - Changed the opponent's behavior when the move lands in midair or lands as a counter hit.
✓ ρ □ · During jump ✓ ρ □ ·	- Changed the damage from 14 to 15.
✓ ρ □ >	1st hit - Changed the damage from 10 to 5. 2nd hit - Changed the frame advantage on guard from -14 frames to -13 frames. - Shortened the recovery animation by 1 frame when the move hits.
✓ ρ □ · During jump ✓ ρ □ ·	- Changed the frame advantage when blocked from -13 frames to -9 frames. - Shortened the recovery time after the move hits by 4 frames.
∨ < ^	- Shortened the recovery time after the move hits by 3 frames.
∨ < ·	- Changed the opponent's behavior when the move lands as a counter hit.
■ ^	- Changed the attack startup from frame 18 to frame 16.
During Moon Glide ∨	- Decreased the range of the attack.
■ · ^ · During Moon Glide ^ ·	1st hit - Shortened the recovery time after the move hits by 4 frames. - Shortened the recovery time for both the character and the opponent by 4 frames upon guard to speed up the interaction. 2nd hit - The 2nd hit can now be ducked under if the 1st hit is blocked.
■ · ^ ^ During Moon Glide ^ ^	- New move.
■ ·	- New move.
During EX Moon Glide >	- Changed the attack startup from frame 51 to frame 41.
■ ∨ <	- Changed the opponent's behavior when the move lands as a counter hit.

■^	<ul style="list-style-type: none"> - Changed the frame advantage when blocked from -8 frames to -6 frames. - Shortened the recovery time after the move hits by 2 frames. - Enabled the move to cause a wall bound if it hits.
□∨<•	<ul style="list-style-type: none"> - Changed the attack startup from frame 25 to frame 24.
■•>	<ul style="list-style-type: none"> - Changed the opponent's behavior when hit by the 3rd hit in midair.
■ ■ ■∨	<ul style="list-style-type: none"> - Changed the frame advantage when blocked from +2 frames to +6 frames. - Shortened the recovery time after the move hits by 2 frames. - Increased the move's tracking.

MIGUEL changes

Damage = The amount of health taken away from the opponent when an attack hits.

Commands	Changes
During Spin Behind >	- Changed the damage from 20 to 22. - Changed the frame advantage upon hit from +3 frames to +4 frames. - Decreased the distance between the character and the opponent when the move hits.
v <	- Increased the damage from 8 to 10.
During Wind Roll ^ >	- Reduced the strength of the pushback, and made the move easier to land.
■ <<<	- Changed the damage from 18 to 20. - Changed the opponent's behavior when hit.
■ < ·	- Changed the damage from 16 to 17. - Decreased the distance between the character and the opponent when the move hits.
■ >	- Made the move less likely to put you on the other side of the opponent, which would occur under certain conditions.
ρ · v	- Changed the damage from 21 to 23. - Changed the input window for the 2nd hit from 22 frames to 24 frames.
♥ · ^	- Fixed an issue in which the 2nd hit's input window would vary depending on whether the previous hit landed or was blocked.
■ · <	- Changed the frame advantage on guard from -14 frames to -13 frames. - Changed the opponent's behavior when guarding the move. - Increased the recovery time after the move hits by 1 frame.
✓ · v	- Changed the attack startup from frame 11 to frame 12. - The move can now be performed using an advance input.
■ ■ ■ <	- Changed the damage from 15 to 12.

While crouching <	- Decreased the distance between the character and the opponent when the move hits.
During sidestep •	- New move.
Approach enemy ■ ^ >	- New move.
Approach midair enemy ■ ^ >	- New move.

NEGAN Changes

Damage = The amount of health taken away from the opponent when an attack hits.

1 frame = 1/60 of a second. A unit of measurement used to indicate the passage of time in the game.

Attack startup = The time at which an attack's hitbox becomes active.

All notes in this list are written from the perspective of you, the player, hitting the opponent (or making them guard) with the move in question.

Commands	Changes
During Rage □ • •	- Fixed an issue in which following up with certain moves would cause the opponent to become turned around.
∨ <	- It is now possible to shift to Intimidation with "∨ < Hold".
∨ < <	- Decreased the move's tracking.
∨ < •	- Increased the distance between the character and the opponent when the move is blocked.
< ∨ •	2nd hit - Increased the distance between the character and the opponent when the move lands as a normal hit or a counter hit. 3rd hit - Increased the distance between the character and the opponent when the move hits.
•	- Fixed an issue in which, after you stopped certain low combo attacks, the opponent would still hit you before your attack's startup.
During Intimidation >	- Changed the frame advantage when blocked from ±0 frames to -9 frames. - Increased the distance between the character and the opponent when the move is blocked. - Changed the move to send the opponent spinning when it hits. - Increased the lower range of the attack.
During Intimidation ∨ <	- New move.
During Counter Hit •	- Changed the frame advantage upon hit from +16 frames to +14 frames. - Fixed an issue in which the character would shift stances even when hitting from the side or from behind.
■ <	- Decreased the distance between the character and the opponent when the move is blocked.
■ ^ ∨ <	- Changed the frame advantage upon hit from ±0 frames to +4 frames.
During Counter Hit ∨ <	- Fixed an issue in which the move would shift to a throw after hitting the opponent from behind under certain conditions.
□ < ^	1st hit - Increased the lower range of the attack. 2nd hit - Increased the distance between the character and the opponent when the move is blocked.
■ • <	- Changed the frame advantage when blocked from -11 frames to -9 frames.

■ ·>	<ul style="list-style-type: none"> - Changed the damage from 28 to 21. - Decreased the distance between the character and the opponent when the move is blocked. - Changed the opponent's behavior when hit.
While rising ∨	- Changed the damage from 15 to 11.
While rising ∨<	- New move.
While rising ∨< Hold	- New move.
